PROFILE

Motivated and adaptable B.Tech student with a strong foundation in programming and ERP technologies. Certified SAP ABAP Associate Developer (S/4HANA) with hands-on experience in ABAP development, web technologies, and data handling. Adept at solving problems, optimizing processes, and developing data-driven solutions. Open to roles in SAP ABAP, Data Engineering, Software Development, Analytics, and ERP Engineering, where I can leverage my technical skills and analytical mindset to drive business impact.

CERTIFICATION

- SAP Certified Associate Developer – ABAP with SAP S/4HANA (C_ABAPD_2309), 2025

TECHNICAL SKILLS

- **SAP ABAP:** ALV Reports, Function Modules, Modularization, SQL Joins, Internal Tables, CDS Views, OData, Adobe Forms, Debugging, Performance Optimization
- **Programming:** Python, C, C++, Java
- **Web Development:** React.js, HTML, CSS, JavaScript
- **Data Tools:** Pandas, NumPy, Excel, SQL
- **Version Control:** Git, GitHub
- **Soft Skills:** Problem-Solving, Collaboration, Adaptability, Analytical Thinking.

EXPERIENCE

1. **SAP ABAP Intern – Feligrat IT Solutions Pvt. Ltd.**   July 2025 – October 2025
   - Developed and tested ABAP programs including ALV Reports, CDS Views, and OData Services.
   - Implemented performance tuning techniques using efficient SELECT queries and modularization.
   - Worked on real-time business scenarios related to Sales Orders, Delivery, and Billing processes.
   - Gained exposure to debugging, Adobe Forms, and end-to-end ABAP development lifecycle.

2. **Frontend Developer Intern – Violet Designs**   December 2023 – January 2024
   - Designed responsive UI components using React.js, HTML, CSS, and JavaScript.
   - Collaborated in an Agile environment with designers and developers to improve user experience.

ACADEMIC PROJECTS

1. **Sales Order Report with ALV Grid:** Improved data visibility and reporting efficiency by optimizing internal table handling and SQL Joins.
2. **Billing Document Address Retrieval:** Automated data extraction from VBRK using ADRNR for address consistency.
3. **Expense Tracker (Python):** Built a personal finance tracker with CSV-based data storage and analytics dashboard using Pandas.
4. **Smart Trolley System (IoT Project – In Progress):** Building an IoT-enabled shopping trolley using sensors and RFID technology to automate item detection, billing, and real-time data synchronization with a central database.

TRAINING

- **SAP ABAP Training – Feligrat Institute (May 2025 – July 2025)**
  Hands-on training focused on Internal Tables, Modularization, ALV Reports, CDS Views, OData, Adobe Forms, Debugging, and Performance Optimization.

EDUCATION

- **B.Tech (2022 – 2026)** – St. Francis Institute of Technology
- **Senior Secondary, Science (2020 – 2022)** – Rustomjee Junior College
- **Secondary Education (2020)** – Mary Immaculate Girl's High School
