PROFESSIONAL EXPERIENCE

- HomeSol - Full Stack Developer intern** **Jun 2025-Aug 2025**
- Developed an internal web application using React and Django to support real-time project tracking and sales analytics.
 - Built a cross-platform React Native mobile application to track construction projects and connect real estate agents.
 - Worked across the full stack to deliver scalable solutions improving internal workflows and agent engagement.
- Schlumberger - Full Stack Developer intern** **Aug 2024 – Feb 2025**
- Developed a Jira-like internal ticketing system for the ADNOC project, enabling structured tracking and resolution of operational issues.
 - Built responsive front-end components using Angular, HTML, CSS, and JavaScript.
 - Integrated backend services using .NET Framework with Cognite Fusion for real-time data handling.
 - Collaborated with cross-functional teams to deliver a production-ready internal tool.
- LeadIB Academy – Lead Software Developer** **Sept 2022-Sept 2023**
- Led development of an IB Diploma educational platform with automated and randomized test generation.
 - Designed and implemented backend services using Django and frontend interfaces using ReactJS.
 - Contributed to a companion React Native mobile application for student access and engagement.

PROJECTS

Freelance Full-Stack Web Development

- Designed, developed, and deployed multiple production websites for clients including Nmstyles, Kiran Adventures, and Ponneri Gymkhana Club.
- Handled requirement gathering, UI development, backend integration, deployment, and maintenance.

Online Virtual Fair Platform

- Developed a MERN-stack web platform enabling users to explore company products remotely during the COVID-19 period.
- Focused on scalability, smooth navigation, and real-time content updates to simulate physical exhibitions.
